Executive Summary

The National Student Loan Data System (NSLDS) Gainful Employment (GE) User Guide includes a table of contents, three chapters, and two appendices. Each of the chapters and appendices are described below. This guide assumes reader familiarity with basic computer terminology and concepts.

- **Chapter 1: GE Compliance, Guidelines, and Administrative Functions** — Presents an overview of GE Reporting: compliance rules, reporting guidelines, and administrative functions and responsibilities.
- **Chapter 2: GE Reporting Batch Processing**—Describes the batch reporting process: matching/updating/returning student records, and completing error files.
- **Chapter 3: GE Reporting Online: the NSLDS Web Site**—Provides step-by-step instructions for using the Web site, including how to log on, navigate the site, report and update student GE details.
- **Chapter 4: GE Program Tracking: the NSLDS Web Site**—Provides step-by-step instructions for using the GE Program Tracking functions on the Web site.
- **Appendix A: GE Reporting File Record Layouts**—Provides the 2 record layouts for GE Reporting files and error files, as well as error codes and explanations.
- **Appendix B: GE Reports Available on NSLDSFAP**—Provides the record layouts for reports that can be requested from the NSLDSFAP Web site.

Chapter 1: GE Compliance, Guidelines and Administrative Functions

1.1 Background

In order to be eligible for funding under the Title IV programs, an educational program must lead to a degree (associate, bachelor's, graduate, or professional) at a non-profit or public institution, or, at all types of institutions, it must prepare students for "gainful employment in a recognized occupation" (GE Programs).

All non-degree educational programs offered by public and non-profit institutions and virtually all programs offered by proprietary institutions are GE Programs. Many institutions that participate in the Title IV student assistance programs, even those that are public or non-profit and that predominantly offer degrees will likely have one or more GE Programs. Therefore, all institutions must be aware of the new regulatory requirements and the information relating to GE Programs on IFAP. Complete information on the GE Program requirements is available on the designated Gainful Employment Information Page that can be found at <http://ifap.ed.gov/GainfulEmploymentInfo/indexV2.html>.

1.2 Compliance

Final regulations published in the [Federal Register on October 31, 2014, \[79 FR 64890\]](#) require institutions that participate in the Federal student financial assistance programs to report certain information about students who enrolled in GE Programs. The regulatory required GE Program reporting will use NSLDS processes and be accomplished by submitting files via the Student Aid Information Gateway (SAIG) or through a special online process. Institutions submitting files through the SAIG will receive an Error / Acknowledgment File after processing.

1.3 Reporting Requirements

Institutions must report on an Award Year basis. An Award Year is from July 1 to June 30. Initial reporting will include data for Award Years 2008-2009, 2009-2010, 2010-2011, 2011-2012, 2012-2013, and 2013-2014. Certain Medical and Dental programs must also submit data for the 2007-2008 award year. Subsequent reporting will be for only the most recently completed award year (e.g., information for the 2014-2015 Award Year must be reported by October 1, 2015). Note that a student who was enrolled in a GE Program in more than one award year must be included in the reporting for each of those award years.

1.3.1 Students to Include

Institutions must report to the Department certain information about all of its Title IV students who enrolled in GE Programs, including students who received Pell Grants or loans. A student in more than one GE program must be reported separately for each of those programs. Additionally, a student who 'stopped out' and reentered the same program during the same award year must be reported separately for each separate instance of enrollment in the program.

1.4 Reporting Methods

The GE reporting process is managed electronically. Institutions will have multiple reporting options including multiple file formats as well as online functions. NSLDS will support the use of fixed width format and comma separated values (CSV) batch format. Managing the reporting process may require both batch and online access, all depending on the method selected to provide the data to NSLDS.

Gainful Employment data reported under the 2010 regulations will not be available.

1.4.1 Batch Reporting

The batch process allows institutions to transmit GE information electronically using their SAIG TG Mailbox. The institution may use the same SAIG TG Mailbox as is used for other batch functions, or may select another TG Mailbox associated with their institution. When utilizing batch processing, the institution may also have online access to submit records and/or for the correction of GE records reported.

1.4.2 Online Reporting

NSLDS offers GE Program reporting functions on the [NSLDS Professional Access Web site](#). NSLDS Web pages:

- Allow institutions to add students using direct online entry,
- Enable institutions to upload GE information directly to NSLDS,
- Display GE students and the details of their GE program information for institutions and ED users, and
- Enable institutions to update/correct and/or deactivate GE records previously reported to NSLDS.

As NSLDS online access is for an individual user and not the institution, institutions must be sure to designate a person from the organization who will be responsible for GE reporting. This user must have an active NSLDS User ID with Enrollment Update for

NSLDS online services.

1.5 How to Sign Up

To apply for online access to NSLDS, go to fsawebenroll.ed.gov. If the institution has a Primary Destination Point Administrator who manages the institution's enrollment in Federal Student Aid (FSA) Application System services, he or she may use their access to add additional NSLDS services and online users. If the institution has never enrolled to exchange data with FSA, follow the directions for "Initial Enrollment for Services".

1.5.1 Batch Reporting

Batch services are setup on fsawebenroll.ed.gov. The institution must indicate that they would like to participate in this service in order to be able to send and receive files via SAIG.

In the event that the institution does not have an online user associated with Enrollment Update for online services, the Primary Destination Point Administrator (PDPA) for the institution must add this access to an existing FSA User ID through fsawebenroll.ed.gov.

1.5.2 Online Reporting

If the institution already has an online user with NSLDS Enrollment Update, this user will automatically be granted access to the functions necessary to participate in GE reporting online. No further action is required for this user.

However, if there are no users at the institution with access to NSLDS Enrollment Update, the PDPA for the institution must complete the application to request Enrollment Update for NSLDS online services. It is necessary that "Enrollment Update" be indicated on the application as an option for the User ID. The PDPA must also enforce the security requirements as outlined in the SAIG User Statement including the completion and maintenance of this statement(s). The President / Chief Executive Officer (CEO) / Chancellor / Equivalent Person / Designee must approve each designated individual who applies for NSLDS online access.

After applying for an FSA User ID through fsawebenroll.ed.gov, you will be assigned a FSA User ID that is used for online access. Each person involved in reviewing student data must have their own FSA User ID. The ID **must not** be shared. The Rules of Behavior and Privacy Act statement presented at log on outlines the appropriate uses of all Federal Student Aid Systems including the [NSLDS Professional Access Web site](#) and the consequences of inappropriate actions.

For additional information or assistance with the sign up process, call CPS/SAIG Technical Support at 800/330-5947 (TDD/TTY 800/511-5806) or send an email to CPSSAIG@ed.gov.

Chapter 2: GE Reporting Batch Processing

2.1 Batch Processing

Institutions submit a GE Submittal file to NSLDS using one of the batch file layouts described in Appendix A. NSLDS responds with the GE Error / Acknowledgement file to institutions which will include codes for any errors in the data received. Institutions send a GE Error Submittal File to NSLDS to correct data in the GE Error / Acknowledgement file sent to them by NSLDS.

All data will originate from the institution without an NSLDS file to prompt a response.

2.2 Batch File Formats

Multiple file formats are available for the purpose of GE reporting. NSLDS will support the use of fixed width format and comma separated values (CSV) format. These formats utilize the same data; it is only the format in which they are provided which varies slightly.

2.2.1 Batch File Types for Fixed Width and Comma Separated Values (CSV)

2.2.1.1 Submittal File

The following outlines the basics of the Fixed Width or Comma Separated Values (CSV) Submittal file.

- **Header Record**—Each GE file contains a single Header record. The Header record identifies the source of the file and the file's preparation/creation date, as well as other identifying information.
- **Detail Records** – Each GE file may contain one or more records in one or more record types: Detail Submittal records, or Mass Update/Deactivation records. The Detail Submittal record type, one or more for each student per GE Program, contains information specific to that student's program for that Award Year. The Mass Update/Deactivation record type is used to update one or more records previously provided to NSLDS, and can be used for the purpose of deactivating one or more records.
- **Trailer Record**—Each GE File contains a single Trailer Record. The Trailer record shows the total number of Detail records contained in the file.
- **Format Data**—All Detail records must be formatted according to the record layout and field definitions in Appendix A. Verify data and check for formatting errors before submitting a file to NSLDS.

2.2.1.2 Response Error / Acknowledgment File

The following outlines the basics of the Fixed Width or Comma Separated Values (CSV) Response Error / Acknowledgment file.

- **Header, Detail, and Trailer Records**—Each GE Response Error / Acknowledgment file contains a single Header record, multiple Detail records with the error codes at the end of each record, and a single Trailer record. The Header record identifies the source of the file and the file's preparation/creation date, as well as other identifying information. The Detail records, one for each record submitted which has at least one error, contain information provided in the GE Submittal file with up to five errors identified. Records without errors, and accepted by NSLDS will not be in this file. Detail records are grouped by record type. The Trailer record shows the number of Detail records contained in the file.
- **Format Data**—Descriptions of error codes for each field are provided in Appendix A.

2.2.1.3 Error Submittal File

The following outlines the basics of the Fixed Width or Comma Separated Values (CSV) Error Submittal file. The Error Submittal file layout follows that of the Submittal file, without any changes or additions.

- **Header, Detail, and Trailer Records**—Each GE Error Submittal file contains a single Header record, multiple Detail records, and a single Trailer record. The Header record identifies the source of the file and the file's preparation/creation date, as well as other identifying information. The Detail records, one for each record located in the Error / Acknowledgment Response file, contain information specific to that student's program for that Award Year, with all previously identified errors corrected. The Trailer record shows the number of Detail records contained in the file.
- **Format Data**—All Detail records must be formatted according to the record layout and field definitions in Appendix A. Verify changes and check for formatting errors before submitting an error submittal file to NSLDS.

2.3 Timing

Each file type has a mandatory timing component associated with its processing. See below for the timing of each file type:

File Type	Source/From	Target/To	Frequency /Timing
GE Submittal	Institutions	NSLDS	Institutions are required to report annually, but may report more frequently.
GE Response Error / Acknowledgement	NSLDS	Institutions	Within 36 hours of processing GE Submittal File
GE Error Submittal	Institutions	NSLDS	Within 10 days of receipt of errors in a GE Response Error / Acknowledgement file.

Table 2-1: GE Batch Submittal Process

If a GE Submittal file has been submitted using the message class found below, and a GE Response Error/Acknowledgement file has not been received within 36-48 hours of submitting, please call the NSLDS Customer Support Center for assistance.

Batch files are submitted using the SAIG TG Mailbox associated with the GE Batch process as designated by the institution. The message classes for the use of data exchanged through SAIG are outlined below.

Chapter 3: GE Reporting Online

This chapter explains how to access and use the Gainful Employment Reporting pages available to school users on the [NSLDS Professional Access Web site \(NSLDSFAP\)](#).

3.1 Your Web Browser

To use the NSLDS Web site, Microsoft Internet Explorer (version 5.0 or higher) is needed. It may be downloaded from www.microsoft.com/ie/ if necessary. (As of February 2008, ED no longer provides technical support for Netscape.)

For security, the computer used to access NSLDS must be capable of encrypting transmissions between it and NSLDS. To do this, the browser uses a form of encryption called secure socket layer (SSL). Current browsers support 40-bit, 56-bit, and 128-bit encryption (128-bit is the most secure). NSLDS can operate with any of these encryption levels, but to increase the security of your financial aid data, it is recommended that 128-bit encryption be used.

3.2 GE Reporting Online: How the NSLDS Web Site Can Help

- **Gainful Employment Add**-Add students to the Gainful Employment List. Once a student's record has been added, it can be reviewed, updated and/or deactivated.
- **Gainful Employment Submittal**-Allows institutions to add student records to NSLDS. The spreadsheet has a file size limit of 1,000 KB (1MB). Any file size over this limit will cause the spreadsheet to be rejected. File size varies depending on the version of software used. Once viewable on the web page, records can be reviewed and selected for final upload.
- **SSN Conflict**-View a list of all data providers which have previously reported on a particular SSN, for which the institution is trying to report and receiving a SSN Conflict error.
- **Gainful Employment List**-View a detailed list of all records loaded to NSLDS for GE Reporting. Student records can be selected, sorted and filtered according to multiple options to assist with record review.
- **Gainful Employment Detail**-View a detailed history of a student's enrollment status.

- **Gainful Employment Update**-Select a student and make changes to the GE information. Student records can be retrieved and sorted in multiple ways—by name, SSN, school-designated identifier, or status. The default setting displays all student GE records, 25 at a time/per page.
- **Gainful Employment Deactivate**-Records may be deactivated in instances when a record has been loaded in error.
- **Gainful Employment Mass Update/Deactivate**—Records may be updated or deactivated in instances where a group of records exhibits the same data elements requiring update, or the same need for deactivation. These records must all meet the same qualifiers for the process to occur successfully.
- **Help!**-Each Gainful Employment Reporting page has its own printable Help page, which can be viewed by clicking the question mark icon. Click Download Help on the Menu page, to download all or part of the Help pages.

3.3 Using NSLDS Online

When a session is initiated on the NSLDSFAP website by logging on to the https://www.nslsdfap.ed.gov/nslsds_FAP/ address, the **Click to Continue** page is displayed. Click the button to connect to the FSA logon page and enter the FSA User ID and password. Once the ID is authenticated, the user will be taken to the Organization selection page associated with your FSA User ID. If the ID is associated with multiple OPEIDs, select the location to be accessed for this session.

After reviewing the User Access Verification, the user will reach the Main Menu Page. From the Main Menu Page, select the Enroll Tab to locate the GE reporting menu items. To access GE Program Tracking, select the Org Tab.

For security reasons, the NSLDSFAP website will time out after 30 minutes of inactivity. This means GE data that have not been submitted within 30 minutes WILL BE LOST when the NSLDSFAP website automatically logs you off.

3.4 Navigating NSLDS

The Navigation Bar is directly below the Navigation Tabs, and includes links to the other pages within the section. The users name and the associated institution's name appear below the links. There are also icons and symbols to assist in navigation and information explanation. Below is a list of what a user might see.

Legend of Icons and Symbols

Icon/Symbol	Description
	Contact icon links you to the NSLDS contact information page for help by phone or email.
	Help icon links you to the specific Help page.
	Session End icon ends your session and returns you to the Welcome page.
	A two-dimensional colored tab with white text indicates that you are in the active subject area.
	A three-dimensional colored tab with white text indicates that other subject areas are available to you by clicking that tab.
	Popup text appears near the mouse pointer explaining an icon's function. (This is an example of that text.)
<u>LINK</u>	Underlined blue text links you to additional information.
	Left arrow icon returns you to a specified page. For example:  Return to Menu.
	Right arrow icon links you to the next page in a series of pages. For example:  Go to Report Log.
	Previous group arrow icon links you to the previous list of items for this page.
	Next group arrow icon links you to the next list of items for this page.
	Alert symbol warns you of critical information that is not in error. For example: The borrower has defaulted loans.
	Information symbol notifies you that additional facts are available. For example: The borrower has received Pell Grants.
	Error symbol alerts you of an error. If the error is an entry error, the prompt for the box is displayed in bold RED .

Icon/Symbol	Description
	Under Review icon displays to the left of the grant being reviewed when the Grant History page is accessed via a link from the Monitor Alert Review page.
	Capitalized Interest symbol indicates a capitalized interest amount is included in the Outstanding Principal Balance.
	Loan Discharge symbol notifies you that a loan has been partially or totally discharged. View the loan detail page for loan discharge details.
	Grant converted to loan symbol notifies you that a TEACH Grant has been converted to a loan. Passing your cursor over the symbol displays date of conversion. Clicking on the symbol will link you to the Loan Detail page for the associated loan.
	Dependency status symbol notifies you that the borrower's dependency status is/was a Dependent. The dependency status is based on the Undergraduate and/or Graduate Award Year's corresponding award year ISIR and the Central Processing System's (CPS) determined dependency status.
	Dependency status symbol notifies you that the borrower's dependency status is/was an Independent. The dependency status is based on the Undergraduate and/or Graduate Award Year's corresponding award year ISIR and the Central Processing System's (CPS) determined dependency status.
	Lock icon indicates the loan is locked and cannot be updated.
	History icon links you to the Borrower Name History page or Borrower SSN History page if history exists in the database.
	Active Bullet Number icon allows you to update, delete, or see more detail. Blue is the active selection color.
	Inactive Bullet Number indicates that no additional information is available regarding this item.
	Plus symbol provides you more detailed information. It is activated when the mouse pointer is on the symbol.
	Report Log Page icon links you to the Report Log.
	Email icon links you to email.
	Glossary icon links you to the Glossary page.
	Print icon allows you to print the Help page.
	Close icon allows you to close the Help page.

3.5 Loading GE Data

There are three methods by which GE records can be loaded into NSLDS:

1. Batch reporting (See Chapter 2 for these instructions).
2. GE Add web page – reached from the Gainful Employment List page, this page allows for a single GE record, for a single student to be added.
3. GE Spreadsheet Upload – reached from the GE Submittal page, this allows for a size limit up to 1,000 KB (approximately 1 MB) of data to be loaded at a time. Any file size over this limit will cause the spreadsheet to be rejected. File size varies depending on the version of software used.

3.6 NSLDS Gainful Employment Add

The GE Add page allows users to add new GE records for students attending their institution. This page is accessed from the GE List page when the user clicks the Add Gainful Employment button at the top of the page.

NSLDS Gainful Employment List

Figure 3-2: NSLDS Gainful Employment List

To add a students' GE record, complete the fields on the GE Add page. Both mandatory and optional fields are available on this page. Please refer to Appendix A for information regarding specific field requirements.

After all pertinent information is entered, click Submit. A message will be displayed indicating if that the record was successfully added to NSLDS.

3.6.1 NSLDS GE Spreadsheet Submittal Upload

The GE Spreadsheet Submittal upload process begins by the user using the NSLDS GE Submittal Template, or a user created spreadsheet, to enter data for submission. Once the GE data has been entered, the spreadsheet must be saved in a secure manner in preparation for upload to NSLDS.

3.6.1.1 NSLDS Gainful Employment Spreadsheet Submittal - Template

The Gainful Employment Spreadsheet Submittal Template is found on fsadownload.ed.gov along with the NSLDS GE Submittal Template Download Guide. The template is an Excel 2003 file and can be opened and updated in later versions of the Excel software. The template does not have a record limit associated with it. The file can be up to one megabyte (1 MB) in file size. The number of actual records may depend upon the amount of data entered into the spreadsheet. Once the submittal template has been downloaded, and GE data has been entered, the spreadsheet must be saved in a secure manner. Please ensure that when saving the file it is saved as an Excel™ file with an extension of xls orxlsx.

3.6.1.2 NSLDS Gainful Employment Spreadsheet Submittal – User Created

The GE Spreadsheet Submittal can also be accomplished when a user creates a spreadsheet without using the available template and GE data has been entered. The user created spreadsheet option does not have a record limit associated with it. The file can be up to one megabyte (1 MB) in file size. The number of actual records may depend upon the amount of data entered into the spreadsheet. It is imperative that the user created spreadsheet be saved in a secure manner. Please ensure that when saving the file it is saved as an Excel file with an extension of xls orxlsx.

When creating the spreadsheet, the file layout found in Appendix A must be used. A header row including the names of the fields, as listed in Appendix A is to be created by the user, with the submittal fields being completed a single row at a time beneath that header row.

3.6.1.3 NSLDS Gainful Employment Submittal Page

The actual upload process starts by selecting a file stored in a secure manner on the local hard drive of the user's computer, or stored in a secure manner on an external medium, such as a flash drive or network. The GE Spreadsheet Submittal page allows the user to search for this file from the location where it is stored. Once the file is located the user will be able to select between Validate or Validate and Submit. The Validate function will apply all of the edits to spreadsheet, providing errors on the specific fields for review, but no data will be submitted to NSLDS. The Validate and Submit function will apply all of the edits to the spreadsheet, submitting data that has no errors to NSLDS, and returning data with errors on the specific fields to the user for correction.

All records will utilize the edits described in Appendix A, and any errors identified during the processing of the spreadsheet upload will be identified to the user online, in their

uploaded spreadsheet. The errors, and the field to which they apply, will be presented in the first available right hand column of the spreadsheet. User can correct the data in the spreadsheet as it is presented on the screen, or go back to the original file to make the updates. Regardless of which method is used, the remaining records must be re-submitted to NSLDS for processing.

NSLDS Gainful Employment Submittal

The screenshot displays the NSLDS Gainful Employment Submittal interface. At the top, the NSLDS logo is on the left, and navigation tabs for Menu, Aid, Enroll, Org, Report, and Tran are in the center. The header contains links for Enrollment Summary, Enrollment Update, Enrollment Reporting Profile, Enrollment Submittal, Enrollment Notification Override List, Exit Counseling Submittal, GE List, GE Mass Update/Deactivate, and GE Submittal. Below the header, a status bar shows the FSA ID: NSL.SCTST2.FSA logged on as: TEST USER from NORTH SOUTH UNIVERSITY / TG54560 / SCTST2. A box displays school information: Name: NORTH SOUTH UNIVERSITY, Code: 06789900, Type: School. Below this is an information icon and the text: Enter the location and file name and submit for processing. The main section is titled 'GE Spreadsheet Submittal' and contains a form with the following options:

- Rows in Result File:
 - Result File contains all rows submitted
 - Result File contains only input rows with errors
- Background color for cells with error in Result File:

3.7 SSN Conflict

To ensure the best accuracy possible of data in NSLDS, data providers, such as GAs and Federal Loan Servicers, are not allowed to load information into NSLDS on two different students with the same SSN. As data providers of GE information, institutions are required to comply with the identifier matching criteria as well.

The matching process is done at the time the data is initially processed for loading to NSLDS. If a student record is found to be already on the NSLDS database, and the identifiers provided by the entity attempting to load the record do not match what is currently in the database, a SSN conflict error will be generated. This error notifies the

data providers that the SSN is in use by another student.

Should a GE record be submitted to NSLDS and a SSN conflict error is issued against that record, it will be necessary for the institution to do research into the accuracy of the student identifiers provided to the system in the GE data submission. This research may need to be conducted in conjunction with the data provider which supplied the initial set of information to NSLDS.

To assist in this research effort, NSLDS provides the SSN Conflict page, which allows users to display a list of the data providers that have previously reported on the SSN which is in error. The SSN Conflict page is located on the Aid tab. In order to utilize this function, click on SSN Conflict in the menu bar, enter the student’s SSN and click **Submit**. The list of one or more data providers that have previously reported on the SSN will be shown on the screen. Any of the organizations can be contacted for information regarding this SSN.

3.8 Viewing GE Data for a Student

There are two GE pages which allow NSLDS users to view the GE records which have been reported to NSLDS, for a student, from the users' institution. The display options are:

1. Gainful Employment List—Provides an overview of student's GE records for all award years which have been reported.
2. Gainful Employment Detail—Gives the full details of a student's GE information at the user's institution.

3.8.1 NSLDS Gainful Employment List

The GE List page displays to users the following information about students enrolled in GE programs at their institution:

- Student SSN
- Student Name
- Student Date of Birth
- Institution
- Award Year
- CIP Code
- Program Attendance Begin Date
- Program Attendance Status During Award Year
- Credential Level

The page has an options box at the top that will allow users to filter results by:

- Location Code
- Award Year
- CIP Code
- SSN
- Credential Level
- Program Attendance Status During Award Year
- Program Attendance Status Date
- History (All, Active, Deactivated)

In addition, the options box allows users to sort results by:

- CIP, Credential Level (SSN, Last Name)
- Last Name, SSN (CIP, Credential Level)

- SSN, CIP (Credential Level, Last Name)

3.9 Updating GE Data for a Student

There are two GE pages which allow NSLDS users to update the GE records which have been reported to NSLDS for a student from the users' institution. The update options are:

1. **Gainful Employment Update**— Allows users to update GE records for students attending their institution, one record at a time. This page can be used to correct data submitted by any method, including batch or spreadsheet upload processes.
2. **Gainful Employment Deactivate**— Gives the full details of a student's GE information at the users' institution. This page allows a GE record to be deactivated should it be found to be loaded in error, or identifiers to the record, which cannot be updated, to be incorrect.

3.9.1 NSLDS Gainful Employment Update

The GE Update page is accessed from the GE List page, which is used to display the records of students successfully loaded to NSLDS. From the GE List page, the user will select a single record to display. At the top of the GE Detail page, an Update button is visible. Click on this button to open this record for update.

The fields which allow updating will be available for data to be changed. As with the initial GE Add page, validation of the information occurs when the Submit button is clicked. Any errors which may be present in the data will be highlighted on the web page, and must be corrected for the record to submit successfully.

A checkbox appears at the top of this screen which when checked, will apply the SSN, First Name, Last Name and Date of Birth which appear on the record displayed on the Update page to all GE records in the NSLDS database which match the same SSN and Award Year as the record displayed. Exercise caution when using this feature as multiple records may be affected.

3.9.2 NSLDS Gainful Employment Deactivate

The GE Deactivate page allows users to deactivate GE records for students attending their institutions. Records may be deactivated in instances when a record has been loaded in error. When a record is deactivated, it remains a part of the GE history, is not deleted, and will not be included as an active GE record. Once a record has been deactivated, it cannot be reactivated. If the record is inadvertently deactivated, the record must be re-added to NSLDS.

The GE Deactivate page is accessed from the GE List page, which is used to display the records of students successfully loaded to NSLDS. From the GE List page, the user will select a single record to display. At the top of the GE Detail page, the Deactivate button is visible. Click on this button to open this record for deactivation.

In order to complete the deactivation, the Confirm button, at the bottom of the screen, must be clicked.

3.9.3 NSLDS Gainful Employment Mass Update / Deactivate

The GE Mass Update/Deactivate page allows users to update or deactivate multiple GE records for students attending their institutions. Multiple records may be updated in instances when records have CIP codes and/or Credential Levels needing to be corrected. Multiple records may be deactivated once it is determined they have been incorrectly added to NSLDS. Once a record has been deactivated, it cannot be reactivated. If the records are inadvertently deactivated, the record must be re-added to NSLDS.

The GE Mass Update/Deactivate page is accessed from the Enroll tab. Select the GE Mass Update/Deactivate link. The user will enter the criteria for the records to display and click on the Submit button. In order to complete the mass update/deactivate, the Confirm button, at the bottom of the screen, must be clicked. Only records which match the criteria in the filter fields will be identified for update/deactivation. If no records match the criteria, no updates will be made.

Chapter 4: GE Program Tracking

This chapter explains how to access and use the GE Program Tracking pages available to school users on the [NSLDS Professional Access Web site \(NSLDSFAP\)](#).

4.1 GE Program Tracking

- **GE Program Tracking List**-Allows institutions to view a list of GE programs that have been reported to NSLDS by institutional Gainful Employment reporting and/or COD.
- **Update GE Program Tracking**-Allows institutions to update the status reason of a GE Program at their institution.

4.2 GE Program Tracking List

The GE Program Tracking List page allows users to view GE program information. The GE program information on this page is provided by the Common Origination and Disbursement (COD) System, institutions and users from the Department. Institutions can view which GE program data has been provided by which entity. This page can be accessed by clicking on the GE Program Tracking List link under the ORG tab.

To display the Gainful Employment Program Tracking List:

1. Select **Summarize** if requesting the resulting data to be summarized at the 6-digit OPEID.
2. Provide an **Institution Location Code** (8-digit OPEID) associated with the **Institution Code** or leave * (default) to receive information all locations.
3. Provide the last four digits of the **Award Year** for a list of GE programs for a specific Award Year. (i.e., for 2013-2014, enter 2014)
4. Select the current **Status** of the GE program.
5. Select All, Yes, or No for programs **Reported by COD**.
6. Select All, Yes, or No for programs **Reported by GE**.

Click **Retrieve** to review the results.

4.2.1 Without Summarize

When the search has been successfully executed the results are returned underneath the search box. If **Summarize** has not been checked, the results will be sorted in numeric order by 8-digit OPEID, then by CIP Code.

The Source COD column will indicate YES when the program was supplied to NSLDS by COD or an FSA online user. The Source COD column will indicate NO if the program was supplied by an institution's reporting of GE data, but the program was not also provided by COD.

The Source GE column will indicate YES if the program was supplied by an institution's reporting of GE data. The Source GE column will indicate NO if the program has not been provided by the institution's reporting of GE data. A combination of YES in the Source COD column and NO in the Source GE column is an indication to FSA and the institution that the school needs to either:

- Report GE student records for this program
- OR
- Update the status of the program if it is designated as a GE program in error.

The Status Reason column indicates the current status of a GE Program as known by NSLDS. The possible options that may appear in this column are:

- A1 - Active
- I1 - No students enrolled in GE program
- I2 - Program was not Title IV eligible in award year
- I3 - Other

Note: For this purpose, "student" means an individual who received Title IV funds.

The Status Date is the date NSLDS became aware of the status listed in the Status Reason column.

The Status User ID is the NSLDS User ID of the entity reporting the status of the program. The possible entries in this column include the NSLDS online user id (not the FSA User ID) of the user that entered or updated the status, COD if the reporting entity was the COD system, or GE if the program status was provided by the institution's GE reporting.

The Inst. Type (Institution Type) and Inst. Length (Institution Length) columns are populated with information related to the type of institution (e.g. Public, Private) and the longest program length available at the institution.

More on how to update the status of a program can be found in Section 4.2.2.

Figure 4-2: GE Program Tracking List Results – Without Summarize

4.2.2 With Summarize

The Summarize feature will combine the information from all programs (identified by a CIP Code and Credential Level combination) into a single row. Using the Summarize feature should be done with care, as the resulting row is not necessarily an indication of the status of all rows reported.

If **Summarize** has been checked, the results will be sorted in numeric order by CIP Code and Credential Level.

The Source COD column will indicate YES when the program was supplied to NSLDS by

COD or an FSA online user. The Source COD column will indicate NO if the program was supplied by an institution’s reporting of GE data, but the program was not also provided by COD. However, when **Summarize** has been selected, if a single row contains a YES in the Source COD column, YES will be provided in the Source COD column, even if the remainder of the underlying rows contain NO. The same is true for the Source GE column. The Status Reason, Status Date and Status User ID are all populated with N/A, as these items are unique to each row and cannot be summarized. As such, the GE Program records should also be reviewed without Summarize selected.

4.3 GE Program Tracking Update

The Update GE Program Tracking page allows users to update the status reason of a GE Program at their institution. If an institution determines that one or more of its programs are not a GE program, they are instructed to update the program's status. This page is accessed by selecting the active bullet number (blue button in the update column) of the program requiring an update on GE Program Tracking List.

- I1 - No Student Enrolled in GE Program
- I2 - Program was not Title IV Eligible in Award Year
- I3 – Other

In order to complete the Update, the **Confirm** button, at the bottom of the screen, must be clicked.

If Status Reason **I3 – Other** is selected, institutions are expected to supply additional information. Responses should be sent to GE-Missing-Data@ed.gov with **“Not a GE Program – Other”** in the subject line.

In order to better organize and compile the incoming responses, report the data elements listed below using an Excel spreadsheet. Please ensure each of these elements is supplied when creating your response:

- OPEID (6 digit)
- Location code
- Institution Name
- Program Name
- CIP code

- Credential Level
- Comments (to include reason for non-reporting)

Appendix A: GE Reporting File Record Layouts

Appendix A: Gainful Employment File Layout Description

This appendix defines the layout for each record within the GE Reporting files and each field within the records. Accuracy must be ensured in both the reporting of data and the correct placement and coding of the data within the files.

Institutions or their servicers send a GE Submittal file to NSLDS in accordance with ED guidelines. Institutions will receive a GE Response Error/Acknowledgement File after NSLDS processes their submittal.

If an institution has not received a GE Response Error/Acknowledgement File within 36 hours of submitting the file, NSLDS was not able to process the file due to file level errors. File level errors are generally caused by header problems, such as non-viewable characters before the header record, or OPEIDs not associated with the TG mailbox. They may also be due to incorrect counts in the footer record. Check your file for these types of issues, correct them, and resend.

Institutions may correct the errors received in the GE Response Error/Acknowledgement file by creating and submitting a GE Error Submittal File to NSLDS, using direct entry on the NSLDS GE Add page, or using the GE Spreadsheet Submittal Template and uploading the file to NSLDS.

Record Layout Specifications

The field composition of the layout description includes the following:

- **Name**—Brief, descriptive title
- **Description**—Short narrative definition
- **Type**—Indicator of the kind of value that must be in the field, as follows:
 - *Character* denotes a field that may contain spaces, letters, or numbers in any combination—for example, 17 Magnolia Street. Character fields not specifically reported must be filled with spaces. If a field is said to require a value 'greater than spaces,' the field must contain at least one letter or number.
 - *Numeric* denotes a field that must contain only numbers—for example, 1234567 as a Loan Amount. Letters, special characters, or spaces in a numeric field are invalid. An entry of T491_24, for example, would not be accepted. Unless otherwise specified in the record layout, numeric fields not specifically reported must be filled with **zeros**.

- *Date* fields must contain only numeric data, 8 digits, and appear in the format CCYYMMDD, where:
 - ⇒ CC = 2-digit century
 - ⇒ YY = 2-digit year
 - ⇒ MM = 2-digit month designation (01–12)
 - ⇒ DD = 2-digit day designation (01–31, depending on the month and year)

Under this convention, an entry of **19950430** would be accepted, but **043095** would not. Unless otherwise specified in the record layout, date fields not specifically reported must be filled with **zeros**.

- **Size**—Number of bytes the field occupies when using fixed-width format.
- **Comments**—Additional information about the field
- **Edit(s)**—Description of the error checking that NSLDS applies to the file that is returned
- **Reporting**—Instructions indicating whether the field must contain data other than spaces or zeros are described below:
 - *Mandatory*—Fill in this field for every Detail record.
 - *Mandatory Conditional*—Fill in this field if the condition described applies to the student. For example, Program Attendance Status Date must be completed for 'G' or 'W' Program Attendance Status During Award Year, but not for 'E' Program Attendance Status During Award Year.
 - *Optional*—Fill in this field if desired.
- **Position**—Position refers to the beginning and ending location (byte number) of the field within the record when using the fixed-width format.
- **Field Code**—Field Code refers to the number assigned to a given field in NSLDS and used in generating Error Messages.

Comma Separated Values (CSV) Layout

Submittal and Error Submittal Files

The Comma Separated Values (CSV) versions of the GE files will contain the same fields as the flat file versions and in the same order. The only differences will be that the fields will be of variable length and will be separated by commas.

Any commas in the fields of a CSV file submitted to NSLDS must be inside quotation marks in order for the file to be processed successfully by NSLDS.

Appendix B: GE Reports Available on NSLDSFAP

Appendix B: GE Reports Available on NSLDSFAP

This appendix defines the layout for various reports that can be requested from the NSLDSFAP Web site, and the layout for each report type.

This appendix contains the layouts for both fixed-width files and comma separated values (CSV) files.

For fixed-width files, the header, detail, and trailer records are identified. Each individual report requested online will generate one header record, one or more detail records, and one trailer record. The record layout table contains the position, the data element name, description, field format, and length as they appear on the extract.

For CSV files, the header, detail and trailer records are identified. Each individual report requested online may generate one header record and one trailer. Not all CSV files contain a header or trailer. Each report will contain at least one or more detail records. Refer to the specific file layout to determine which record types that report contains.

The record layout contains the relative position, the data element name, description and field format. All fields are separated by a single comma.

Additionally, each report is preceded by a table that describes the report, the format which can be requested and delivery information.
